

E-Learning for Small & Mid-Sized Companies

INDUSTRY LEADING COURSE CONTENT

Online training should not cost a fortune. In fact, online training usually saves money and time. e-Learning is frequently just as effective as traditional classroom training. We've partnered with some of the best content providers in the industry to offer 8,000+ online courses in all areas of employee development – including Business & Professional Skills, End User Desktop Computing, Leadership & Management, Sales & Customer Services, Workplace Health & Safety, etc.

DEDICATION TO SERVICE & SUPPORT

Over 85% of our clients were first time e-learning consumers when they partnered with us! Each client has a dedicated Account Management who provides you with support in every phase of the development, deployment, and marketing of your training initiatives. Our Technical Support team is there for you and your users, too.

HASSLE FREE TECHNOLOGY

Our Learning Management System (LMS) provides management reporting, automatic e-mail messaging and WebEx integration. Implementation is quick, and our e-learning solution allows your employees to access online courses and manage their registration and progress in classroom training.

PROFESSIONAL SERVICES

We also develop customized courses to meet specific training needs of our clients. Our Professional Services team has ability to deliver training tailored to our clients' culture and needs.

AFFORDABLE PRICING MODEL

BizLibrary uses subscription-based pricing to make quality e-learning an affordable option. Your business can have a complete online training solution with thousands of online courses, complete tracking and reporting with no set up fees, no hosting fees, and no LMS fees. You'll only pay for the courses your employees need to take.

- **Business & Professional Skills**
- **Desktop Computer Skills**
- **IT**
- **Leadership & Management**
- **Legal Compliance**
- **Sales & Customer Services**
- **Health & Safety**
- **Healthcare**
- **Financial Services**
